

MARC LEBRETON

Commercial & Growth Leadership — Fintech, Brazil and Latin America

São Paulo, Brazil · write2marc@gmail.com · [phone] · [linkedin.com/in/...]

English (fluent) · Portuguese [native / fluent] · Spanish [fluent] · São Paulo based, available on site

PROFILE

Commercial and growth leader in Brazilian fintech, with a zero-to-one track record in a hyper-growth environment. Built and ran the market-entry plan that took Crypto.com's Latin America business from nothing to **6M+ customers and the #1 app position in the region**, owning the full customer lifecycle — acquisition, activation, retention and expansion — across [N] markets. **[IF TRUE: Built and led a commercial team of __ across sales, account management and partnerships. THIS SENTENCE IS THE ROLE'S HARD MINIMUM — see the note in my message. If it isn't true, delete it and do not imply it.]** Established network across the Brazilian fintech and payments ecosystem — **[name real relationships: PSPs, acquirers, banks, regulators, fintech operators]** — and working knowledge of local rails including PIX and TED.

SELECTED OUTCOMES

- **0 → 6,000,000+ customers and #1 app in Latin America** — Crypto.com regional launch across [N] markets in [**__ months**]
- **[Revenue / ARR / monetisation: took the region from \$__ to \$__ — Airwallex will look for a revenue number, not just a user number]**
- **[Team: built a commercial team of __ across SDR / AE / partnerships; __ hired directly; __ promoted]**
- **[Quota or target attainment: __% against a \$__ target, over __ quarters]**
- **[Multi-channel acquisition: which channels you built, CAC by channel, and payback period]**
- **0 → 130,000** — Sui Foundation regional channel **[keep only if you can attach a commercial outcome; otherwise cut from this CV]**
- **[Deals you personally closed as an IC — Airwallex explicitly wants a player/coach, so name the largest and the segment]**

EXPERIENCE

Sui Foundation — [Title]

[Location] · [Start - End]

- **[Lead with the commercial outcome — revenue, partnerships closed, institutional or B2B accounts activated]**
- Grew the regional channel from **0 to 130,000** — **[which markets, and what it converted into]**
- **[Partnerships you originated and closed, and their contribution]**
- **[Cross-functional work with product and marketing — Airwallex names both explicitly]**

Crypto.com — [Title]

[Location] · [Start - End]

- Owned the Latin America commercial and go-to-market strategy end to end, scaling from zero to **6M+ customers and #1 app position** across **[which countries]**
- **[Team leadership — the single most important bullet on this page. How many people, in which functions (SDR, AE, partnerships, marketing), how many you hired, and over how long. Airwallex requires 5+ years of this as a MINIMUM qualification.]**

- **[Multi-channel customer acquisition: the channels you built and scaled, with CAC and volume by channel]**
- **[Payments and local rails: PIX, TED, boleto, card acquiring, local banking partners — what you integrated, negotiated or prioritised]**
- **[Regulatory and licensing work in Brazil — genuinely differentiating for a fintech role, if you touched it]**
- **[Customer lifecycle beyond acquisition: activation, retention, upsell — Airwallex names all four]**
- **[Representing the company externally: events, press, industry panels in the Brazilian market]**

[Earlier role — company] — [Title]

[Location] · [Start - End]

- **[2-3 bullets. Any B2B, SME-segment, consulting or team-management experience belongs here and should be surfaced hard — those are the three things this CV is thinnest on.]**

CAPABILITIES

Commercial leadership Brazil commercial strategy · vertical and segment positioning · **[building and scaling SDR / AE / partnership teams — only if true]** · player/coach operating style · pipeline and forecast ownership

Growth Multi-channel customer acquisition · full lifecycle ownership (acquisition, activation, retention, expansion) · growth experimentation · cohort and CAC/LTV analysis · partner and channel-led growth

Fintech & payments PIX · TED · **[boleto · card acquiring · FX · cross-border · treasury]** · Brazilian fintech regulation · **[named ecosystem relationships you can actually activate]**

Markets Brazil · **[Mexico · Argentina · Colombia · Chile — only where you operated]**

Tools **[Salesforce / HubSpot · Amplitude or Mixpanel · Looker or Power BI · SQL — list only what you've used]**

EDUCATION

[Degree — Institution — Year]

[MBA, if you have one — 52% of applicants to this posting reportedly do]
